

# Nginx Setup

## Install Nginx:

```
sudo apt update  
sudo apt install nginx
```

## Useful commands:

- `sudo systemctl status nginx` → Check Nginx status
- `sudo systemctl stop nginx` → Stop server
- `sudo ss -tulpn` → Show open ports

✅ Open your server IP in a browser → you should see the **Nginx welcome page** 🎉

## Change Nginx User to `admin`
